

GIVING HOPE TODAY

HOST TEAM AXIOMS

We get to do this!

This is bigger than us and not about us.

We trust God to do more than we can ask, think, or imagine and constantly give glory to Him. The why will always come before the what or the how.

Lost Larry

Everybody is somebody's someone.

We don't always know how long someone has been prayed for, fought for, and invited before they say "yes" to church. We know we get only a few moments to make it meaningful. We treat every guest like they are our someone.

Get in here!

We've been waiting for you.

We set the stage and fully prepare so we are ready for guests and ready for God to move.

Comfort starts with safety

Safety starts with me.

We anticipate problems and identify risks to protect our guests and ourselves.

We don't have baggage fees

Our church is a place to belong before you believe.

We make room for people and their baggage. Church is a refuge and place of inclusion and acceptance for all people.

Set the temperature

We are thermostats not thermometers.

We are the first impression and set the temperature for the guest's experience. Our body language and interactions are a depiction of joy and positivity.

One by one

Every person matters to us because every person matters to God.

We make our interactions individual and unique, personal and prompt.

Far from forgettable

We go the extra mile.

We exceed the expectations of our guests with action, care, and connection.

Enjoy it!

We have fun.

We have fun because not having fun is boring.
