

## Human Sexuality and Christian Ethics

Join us for a 9-part online small group study and discussion as we explore topics of sex, gender, culture, and faith. This series will be held by videoconference.

This is an opportunity for Christians to learn more about issues of human sexuality using the resources of Christian ethics. It is also an opportunity to engage with others in discussions that are open, honest, respectful, and constructive. These discussions will be kept confidential within the small group.

A reliable internet connection and a computer or other device that is equipped with a microphone and camera are required to participate in the video conference series. We also ask that you join in from a location that is quiet and private.
