# LIVE STREAMING

## A SIMPLE GUIDE TO LIVE STREAMING YOUR SUNDAY SERVICES USING STREAMYARD.COM

StreamYard is a free online live streaming studio that will make it possible to hold services in your corps building while providing a live feed to those unable to attend.

## RESOURCES REQUIRED

1 or 2 cameras connected to Wi-Fi. Phones or tablets will work just fine.

A computer hardwired to the internet to produce the service. This is the computer logged into StreamYard as the host.

The in-house computer that projects lyrics on screen connected to internet/StreamYard.

2-4 people operating and producing the live stream.

4 more additional cameras and feeds can be included. Cameras connected to computer as well as sound from your soundboard can be included as needed.

## HOW DOES IT WORK?

- Log into streamyard.com on the host computer
- Invite and send the StreamYard link to the cameras
- Invite and send the StreamYard link to the powerpoint computer and "share screen"
- Host computer selects all the camera angles and feeds
- Live stream to Facebook or YouTube

## WHAT DOES IT COST?

FREE - The steps outlined here are based on the free version of StreamYard. This stream will come with the StreamYard logo in the top right corner.

$20/month - No StreamYard logo, multiple streaming destinations, backgrounds and more.
