

HOW TO CHOOSE NEW SONGS

Choosing new songs gives the congregation a chance to connect with God in a fresh way. How you select new songs must be done thoughtfully and intentionally.

Choose a new song to introduce to your corps and consider the following questions:

Why did you choose this song?

Does it support the mission and goals of your corps?

Are the lyrics theologically sound?

What demographics of your church will this song work most with initially?

What other familiar pieces of music can be used alongside this song?

Planning ahead for the new songs you want to introduce can assist as you decide when and what to introduce to your congregation.

Choose 3 new songs you could use in the future with your congregation. List Scripture references that could be useful and list relevant themes.

Song 1:

Song 2:

Song 3:
