

World Wide Prayer Focus

New Zealand, Fiji, Tonga, Samoa Territory

Our territorial mission plan focusses on 'Living like Jesus' and 'Doing Mission Together' These are continuing needs for us in order to see the mission impetus and greater outcomes.

1. As a territory we are seeking a fresh encounter with the Holy Spirit in order that we may experience again more of God's power at work amongst us. In October last year we launched New Zeal and this same theme is enduring through to our Encounter Congress in October 2019. General Brian and Commissioner Rosalie Peddle will be leading the Congress and we are believing for lives to be transformed and our territory spurred to even greater things.

2. Having completed the process of establishing our Governance Board, this year will see some external Directors added to this. Please pray for wisdom as this process takes place, and the readiness of people to agree to be part of this.

3. Please pray for the ongoing impact TSA mission on Samoa, which was a new opening last year. The corps is constantly growing, and the addictions services are seeing people set free. We praise God for this.

4. Our territory needs more officers, as we face pending retirements. Cadet session numbers are not keeping up with the demands for mission, which also prevent mission expansion. Please pray for more candidates who will come forward and offer for training.

5. Please pray for our Maori Ministries. This is a vital part of our mission. We are seeing great local leadership emerge and beneficial integration of Maori culture with our various expressions of worship. We want more Maori people to find their place within TSA (rather than just using our services) and be leaders amongst us.
