

World Wide Prayer Focus

The United Kingdom Territory with the Republic of Ireland has requested we gather in prayer to lift up the following concerns;

- The recent terrorist threats in the UK - for victims and their families and the communities that have been affected and also for those people from The Salvation Army who have been or are part of the response and relief operations.
- The newly commissioned officers (July 2017) including their families facing this time of change and all that this entails for them, as well as those leaders leaving our Territory and those arriving, that the Lord will be with them in these transition changes and the Territory as changes are made.
- All who serve with dedication and faithfulness within the Territory, remembering those who are dealing with emotional and spiritual challenges within themselves or in support of others, that they will be encouraged to face challenges and opportunities in grace and hope.
- The faithful and effective communication of the gospel of good news across our islands, inviting people to 'come and see' and then to 'go and tell'.
- The ongoing discerning and development of strategic priorities and objectives for our Territory, to release people into mission, following our recent Cabinet and Trustee Strategy Day (July 2017).
- Wisdom as we embed key developments from our 'Fit for Mission' Review and enable and encourage our people to embrace new ways of being, working and engaging with communities.
