

# Praying With Your Camera

**01** **Get** your camera. Even a smartphone will do!

**02** **Pray** that God would open your eyes and heart to see the world the way He does.

**03** **Go** for a walk. Allow God to draw your eye to various things around you. Take photos as you feel led.

**04** **Reflect** on your photos. Images often take on greater meaning after meditating and praying on them. Does a Bible verse come to mind? A heart cry for change? Listen to what God is saying to you through the images.
