

HOSPITAL PRAYERS

Maude is a nurse, and Jorge is a respiratory therapist in Quebec. Many people work in hospitals taking care of people with Covid-19.

Pray for doctors, technicians, therapists, cleaning staff as well as patients and their families!

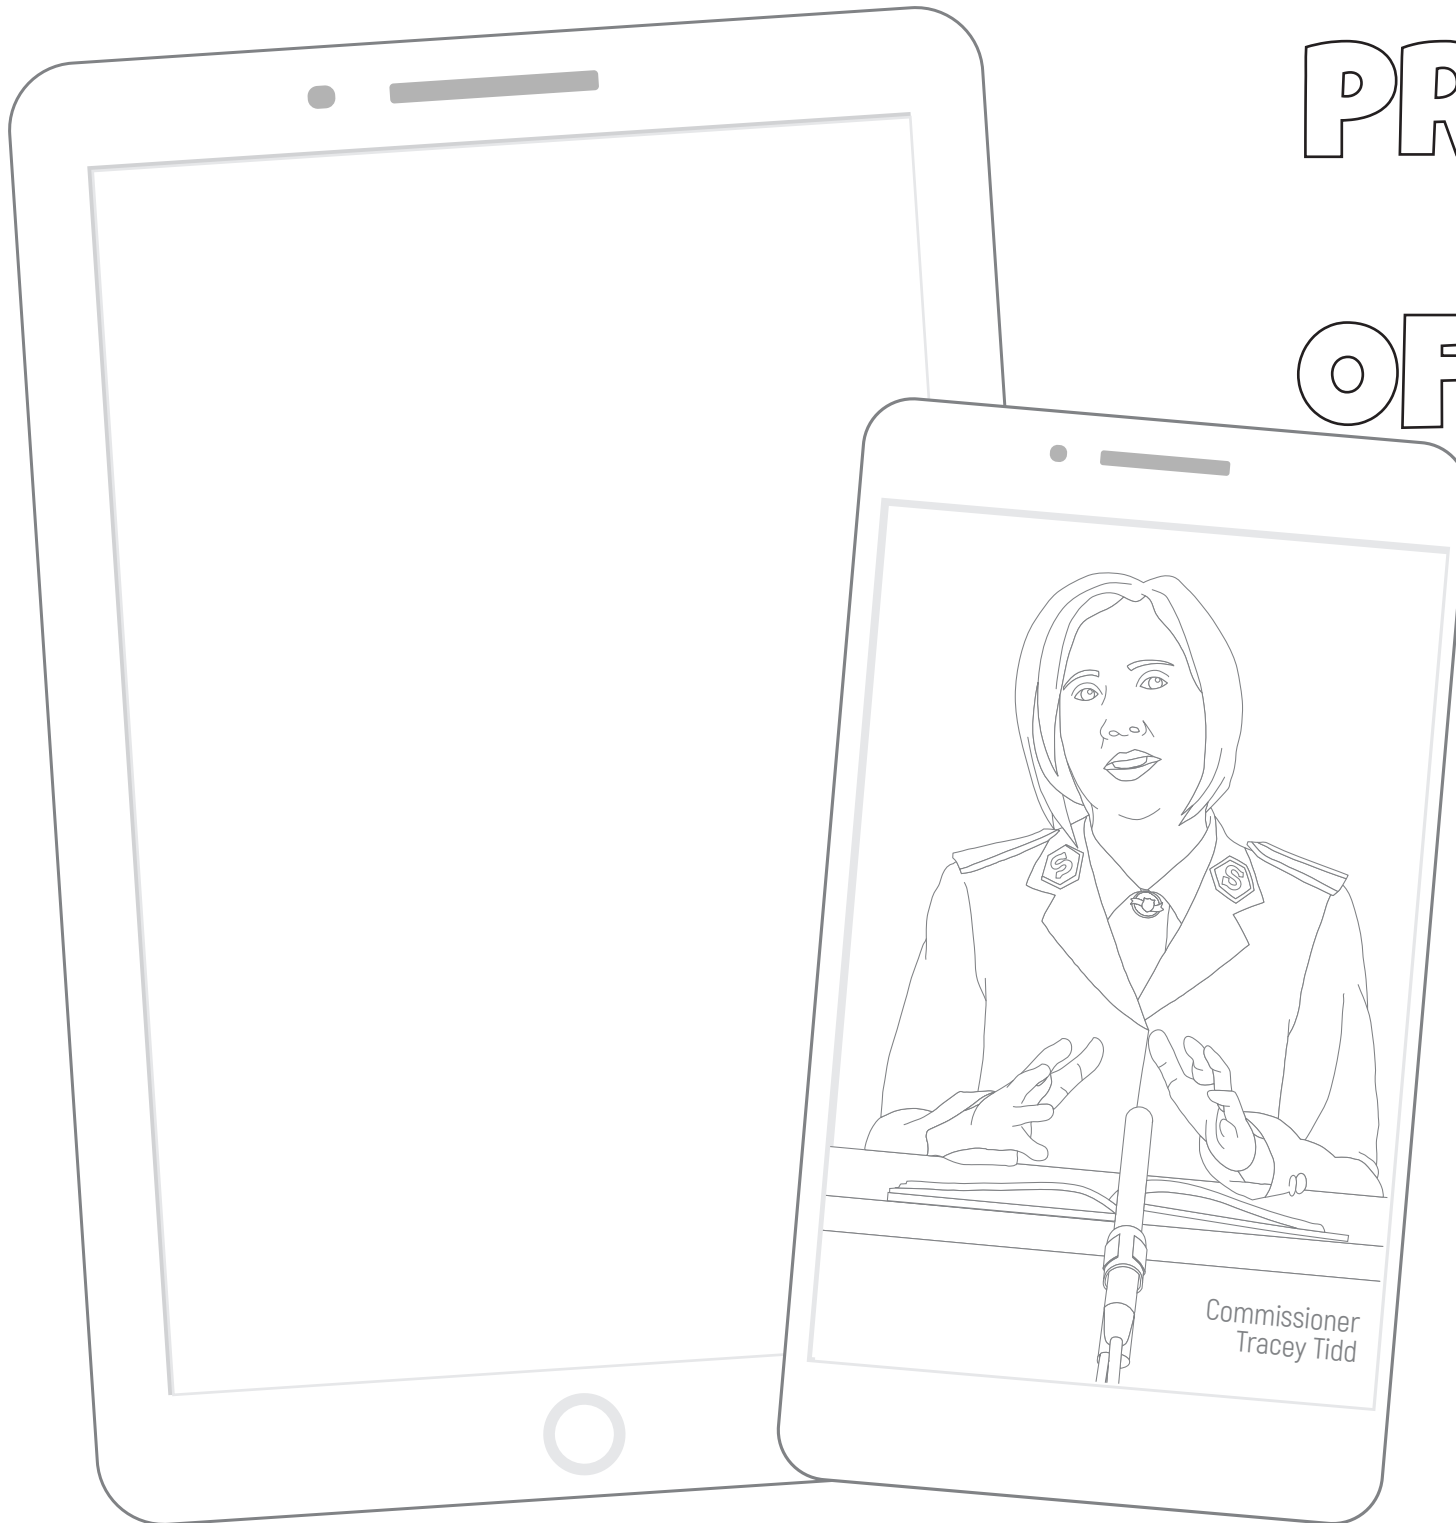

NOT ALL HEROES WEAR CAPES!

A first responder is someone with special training, and they are called in first to help deal with emergency situations.

Paramedics, firefighters and police officers are all first responders, BUT they don't usually wear capes! Why not pray for them as you draw a cape onto these first responders?

PRAY FOR YOUR OFFICERS!

This is a Salvation Army officer. Usually, they tell people about Jesus at a church meeting, but many churches are closed right now.

Officers are working hard to put their church services online so we can still worship together.

Pray for officers as they continue their work during Covid. Ask God to give them strength, patience, wisdom and creativity. Pray that all officers will do a great job telling people about Jesus online AND in person!

Does your church have online meetings? Draw your officer giving a message on the blank device screen!

PRAY FOR NURSES!

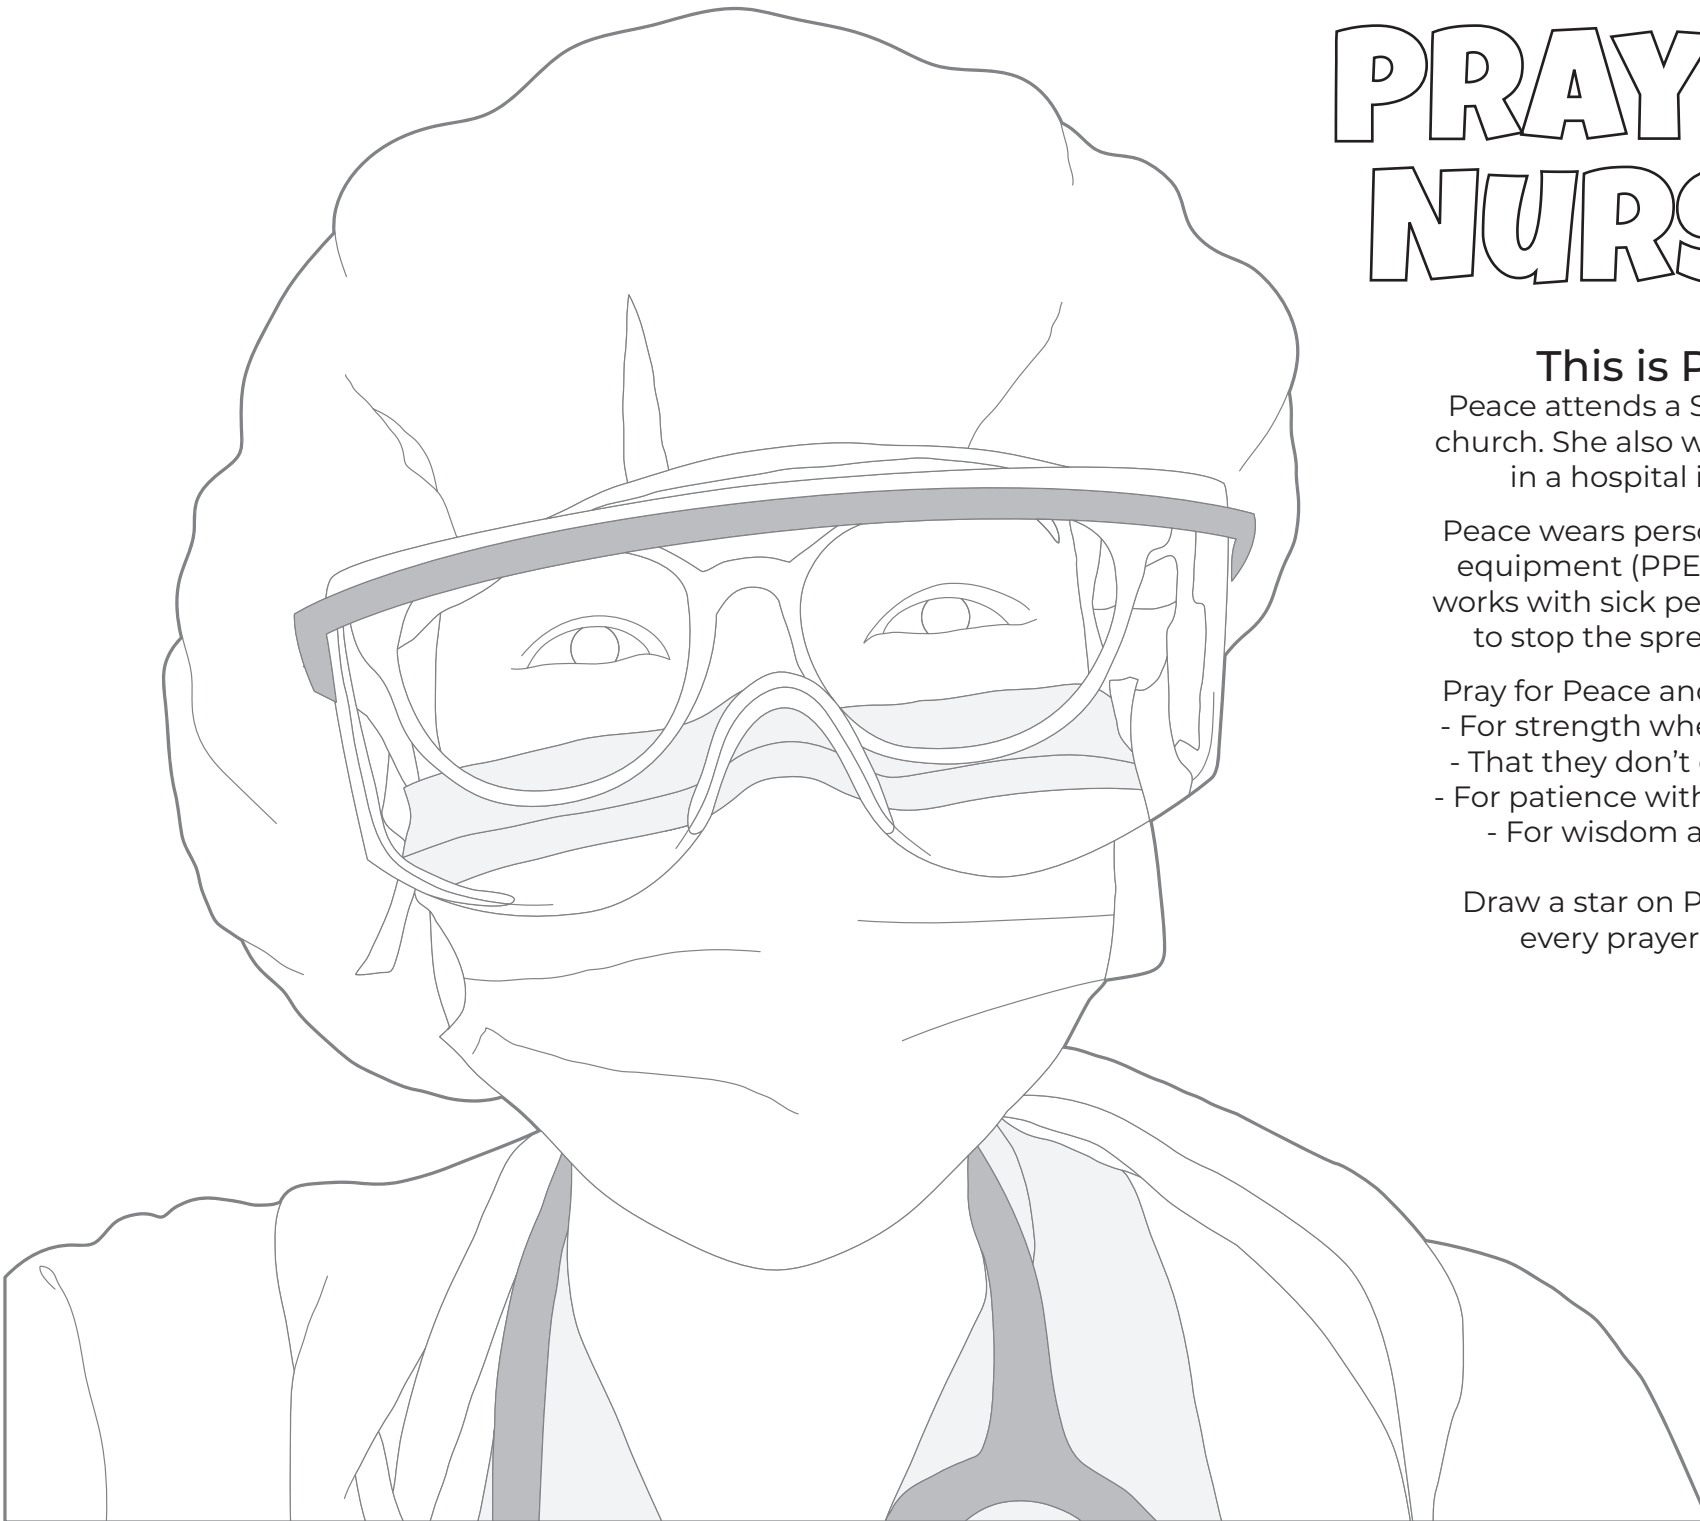

This is Peace.

Peace attends a Salvation Army church. She also works as a nurse in a hospital in Ontario.

Peace wears personal protective equipment (PPE) because she works with sick people. This helps to stop the spread of germs.

- Pray for Peace and other nurses!
- For strength when they're tired
 - That they don't catch Covid-19
 - For patience with scared people
 - For wisdom as they work

Draw a star on Peace's hat for every prayer you pray.

SHIPPING THE VACCINE

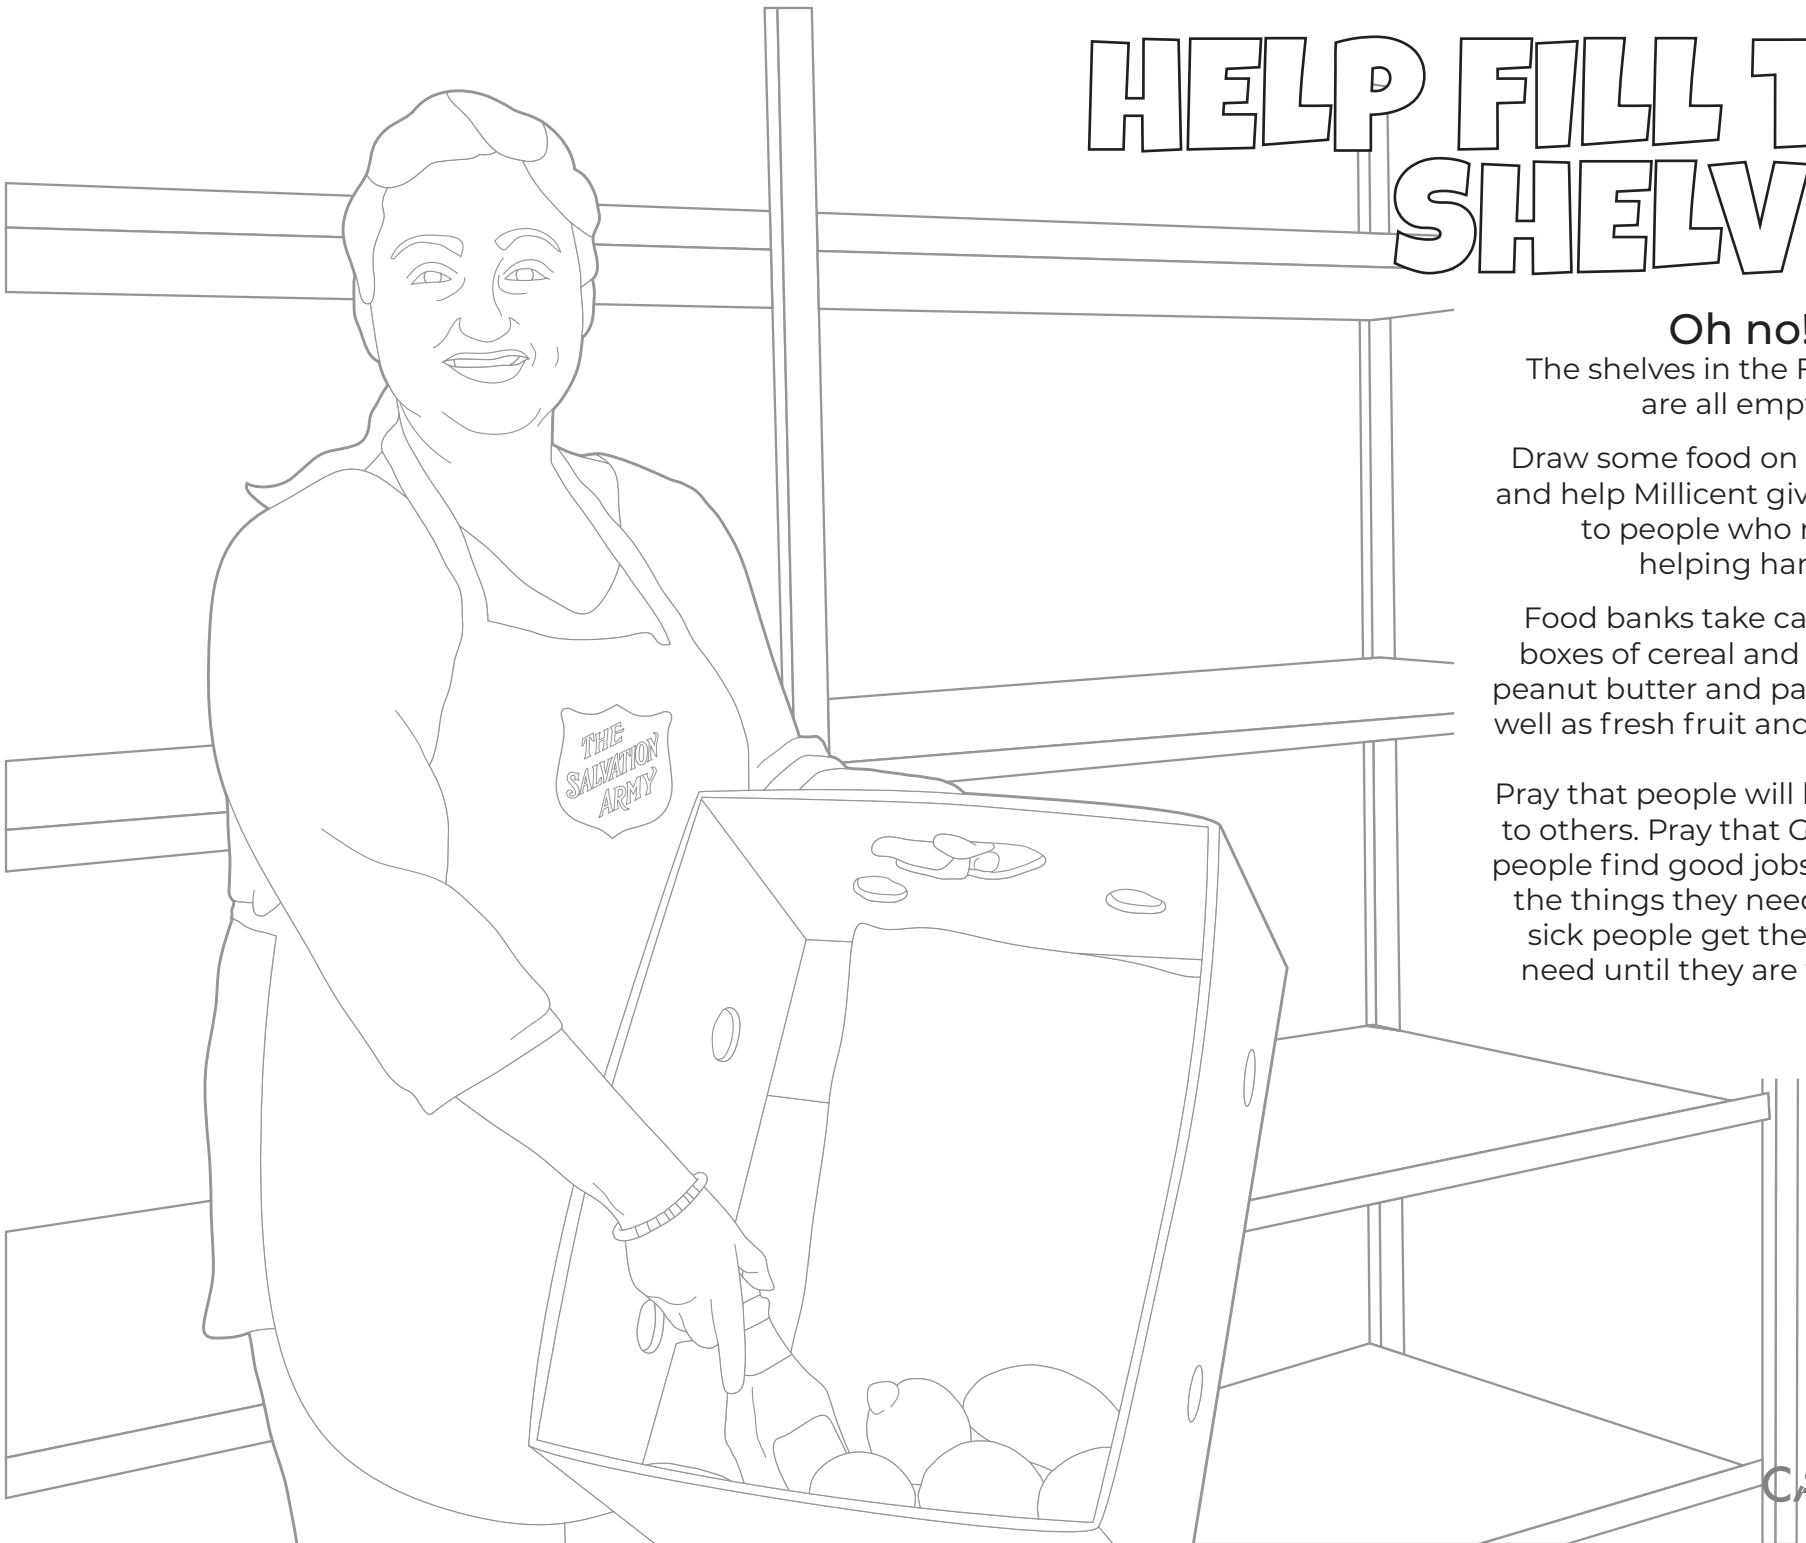

Producers around the world are working to make and distribute vaccines for Covid-19.

Our bodies don't know how to fight off Covid-19, so many people get very sick. The vaccine will teach our bodies how to fight off Covid-19 in a safer way. Then most people wouldn't get sick at all.

Write a prayer in the space below, asking God to give wisdom and generosity to those distributing the Covid-19 vaccine. Pray that it is shipped quickly so everyone can be protected.

HELP FILL THE SHELVES!

Oh no!

The shelves in the Food Bank are all empty!

Draw some food on the shelves and help Millicent give good food to people who need a helping hand.

Food banks take cans of food, boxes of cereal and rice, jars of peanut butter and pasta sauce, as well as fresh fruit and vegetables!

Pray that people will be generous to others. Pray that God will help people find good jobs that pay for the things they need. Pray that sick people get the help they need until they are well again.
