

SALT

Ida Krommenhoek

Introduction:

Salt is a very useful substance. Millions of tons are taken from the briny sea or mined every year. Both the fine and the coarse grades are used in curing fish, animal hides, refrigeration and for ice and dust control on our highways.!

SONG: - *Forward be our watchword, steps and voices joined* [SASB 682/ TB (203, 206)]
(note the wording of verse 2 – “Forward flock of Jesus, SALT of all the earth”)
