

## Craft—Flower Bouquet

**Materials:** Light colored construction paper  
Hand paint  
Sticker happy faces  
Empty miniature cupcake shells, enough for 5 per child  
Glue

### Directions

1. Give each child a sheet of construction paper with the vase already pasted on it.
2. Ask each child to make a handprint on the construction paper just above the vase, using the hand paint; ensure fingers are spread apart, and the hand is placed far enough upon the paper to present the option of drawing the wrist as the stem of the flower.
3. Clean paint off hand and give a little time for the paint on the construction paper to dry.
3. Place a sticker happy face at the bottom of the inside of each miniature cupcake shell.
4. Glue a cupcake shell at the top of each finger, making a bouquet of five smiling flowers.
5. Have each child autograph his/her creative bouquet.
